

MISSION STATEMENT

Our mission is to provide one of the most luxurious, authentic and enriching travel experiences available anywhere in the world in an environmentally sensitive, sustainable and culturally rich manner.

We are committed to preserving and protecting the natural splendor and precious biodiversity of Tetiaroa; respecting and supporting Polynesian culture, hospitality and traditions; and achieving a negligible carbon footprint.

We will support research, education and outreach aimed at increasing the knowledge of and appreciation for the natural and cultural heritage of tropical islands and their people. And we will use, encourage and support innovation to address local and global environmental and sustainability issues.

As stewards of Tetiaroa, we are committed to preserving and protecting the atoll and being a responsible member of both our local and global communities. We will deal fairly and honestly with our staff and suppliers in an atmosphere of mutual trust, accountability and reward.

We will strive to be a model for the rest of the world. We will leave Tetiaroa a better place than when we came and continually seek to enhance the lives of all those who visit.
